

Wood Pellet Stove

Technical datasheet

301313 Pellet insert
VITTA TOUCH 9 kW – Black

A+

1

Description:

A pellet stove is an economical, eco-friendly, and responsible solution. Thanks to the calorific power of pellets and the high efficiency of the units — over 90% — the models are built with high-quality materials and feature special characteristics that distribute heat evenly for longer, creating a very pleasant space.

They are also very simple to use. You only need to select the desired temperature, and the heater automatically warms the room until it reaches the set temperature, keeping it constant.

Pellet stoves run connected to the mains supply (230 V / 50 Hz).

PELLET: RENEWABLE ENERGY

It is an eco-friendly fuel with very low moisture content, made from sawdust and other by-products of the plant kingdom. Pellets are CO₂-neutral and burn completely, generating minimal ash residue. The European standard for pellets is UNE-EN ISO 17225-2:2014.

2

Technical Specifications:

Model

Vitta Touch, pellet stove, insert and ductable.

Color options: Black.
Wi-Fi connection via the VIVION App.
Low-pellet hopper alert.

Heating characteristics

Room volume	m ³	225
Can connect to other rooms via ducts	No	
Can be used in the combined-combustion system	No	
Flue outlet position	Rear	
Fuel: pellets (diameter)	mm	6
Autonomy (min – max)	h	9 / 21
Hopper capacity	kg	17
Intermittent combustion system	Yes	

Technical characteristics

Heat output (min – max)	kW	9
Thermal efficiency (nominal)	%	90
Consumption (min – max)	kg/h	0.8 / 1.8
Electrical consumption	kW	0.1 / 0.4
Voltage / Frequency	V / Hz	230 / 50
Control	Thermostat	

Weight / Dimensions

Net weight	kg	115
Dimensions (length × depth × height)	mm	705×623×595
Flue outlet (diameter)	cm	8

3

Benefits:

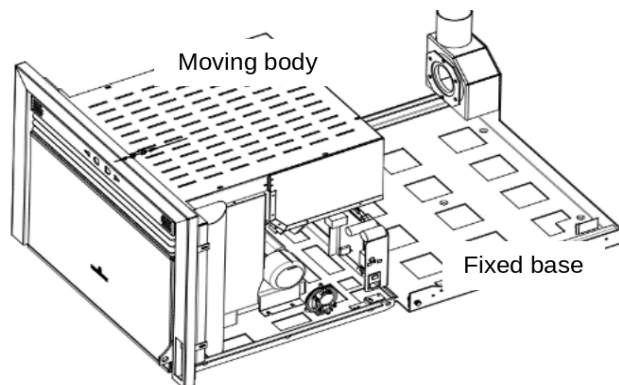

Daily and weekly programming – Touchscreen display – Low-pellet hopper alarm – Rear flue outlet – 4 power levels – Eco mode (2 options) – Overheating protection – Thermostat and temperature sensor – Flue-gas temperature control – Forced flue-gas outlet – Automatic cleaning program.

Insert and ductable model via a Ø80 mm pipe.

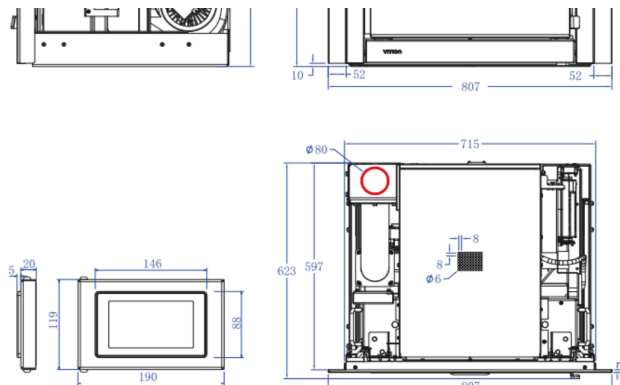

Wi-Fi module included: Unit ready to be controlled in a smart-home environment through the VIVION App, available on the App Store and Google Play. Compatible with Amazon Alexa, Google Assistant, Apple Watch, and Siri.

4

Installation:

Insert view — moving body / fixed base

Insert model: lets you convert a traditional open-hearth wood fireplace into a closed hearth without altering the structure. It can also be installed where the unit is preferred built into the wall, fitting the room's aesthetic design.

Ductable model: heats the room where the unit is located as well as another room. Ø80 ducting, 130 m³/h, up to a distance of 5 meters.

5

Applications

Residential, commercial, office, and institutional areas.
