

Wood Pellet Stove

300312 VITTA 9 kW Insert Wood Pellet Stove – Black

Smart Home

Technical datasheet

A⁺

1 Description:

A pellet stove is an economical, eco-friendly and responsible solution. Thanks to the calorific power of pellets and the high performance of the units, efficiency exceeds 90%. The models are made from high-quality materials and feature special functions that distribute heat evenly for longer, achieving a very comfortable space.

They are also very simple to use. You only need to set the desired temperature and the heater automatically warms the room until it reaches the set point, keeping it constant.

Pellet stoves run connected to the mains supply (230V/50Hz).

PELLET: RENEWABLE ENERGY

It is an eco-friendly fuel with very low moisture content, made from sawdust or other plant-based by-products. Pellets are CO₂-neutral and burn completely, leaving minimal ash residue. The European standard for pellets is UNE-EN ISO 17225-2:2014.

2 Technical Specifications:

Model

Vitta, pellet stove, insert.

Colour options: Black.

Optional Wi-Fi connectivity accessory.

Technical specifications

Heating capacity (min - max)	kW	9
Thermal efficiency (nominal)	%	90
Consumption (min – max)	kg/h	0.8 / 1.8
Electrical consumption	kW	0.1 / 0.4
Voltage / Frequency	V / Hz	230 / 50
Control	Thermostat	

Heating characteristics

Room volume	m ³	225
Can be ducted to other rooms	No	
Can be used in a combined combustion system	No	
Flue outlet position	Rear	
Fuel: Pellets (diameter)	mm	6
Autonomy (min – max)	h	11 / 25
Hopper capacity	kg	20
Intermittent combustion system	Yes	

Weight / Dimensions

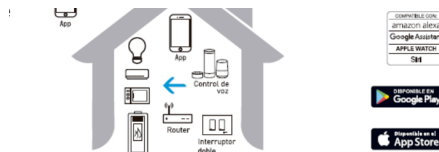

Net weight	kg	115
Dimensions (L × D × H)	mm	807×617×634
Flue outlet (diameter)	cm	8

3 **Benefits:**

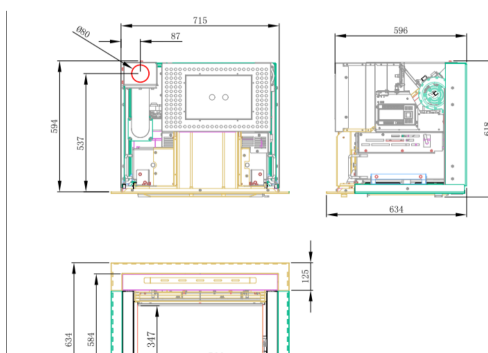

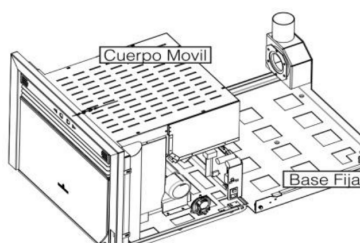

Daily and weekly programming – Remote control – Rear flue outlet – 4 power levels – Eco mode (2 options) – Overheating protection – Thermostat and temperature sensor – Flue-gas temperature control – Forced flue exhaust – Automatic cleaning programme.

Insert model.

Optional Wi-Fi module: Unit ready to be controlled in a smart-home environment through the VIVION App. Available on the App Store and Google Play.

4 **Installation:**

Insert model: lets you convert a traditional open-hearth wood fireplace into a closed hearth without altering the structure. It can also be built into a wall for a flush, design-matched installation.

5 **Applications**

Residential, commercial, office and institutional spaces.
